		# attending					Raw vote totals							Weighted vote totals							

When voting is complete sort on column Q and count n of representatives for each country. Enter above, column R.

For each country, copy the number present and paste it into every row for that country (initially coded 1 - override that if necessary)

Country abbreviation	Country Name	# valid votes from that country
----------------------	--------------	---------------------------------

At the same time, copy the code for type of election study in column S and paste it into every row for that country

Code this column 0 for non-Europe

A	Austria	1
B	Belgium	5
CH	Switzerland	1
DK	Denmark	1
ES	Spain	2
FI	Finland	2
F	France	2
D	Germany	2
EL	Greece	2
H	Hungary	1
IC	Iceland	1
I	Italy	5
IE	Ireland	3
LU	Luxembourg	2
NL	Netherlands	4
P	Portugal	1
PL	Poland	1
S	Sweden	2
SE	Slovenia	2
SK	Slovakia	1
UK	Britain	5

After sorting, the election study code will not necessarily be at the top of the list of names for each country.

Copy it to that position before copy-pasting identical values of Q and R for each participant from that country.
